

LIQUID MASK: **ADVANCED USES**

We experimented further with the liquid mask and found out it has more uses than what it is primarily made for.

From copying textures, to replicating cloths.

The following were achieved by dispensing 2 layers, straight out of the bottle. It dries into a thin, stretchy, very durable film.

SAMPLES:

PAPER-LIKE

COPY TEXTURES

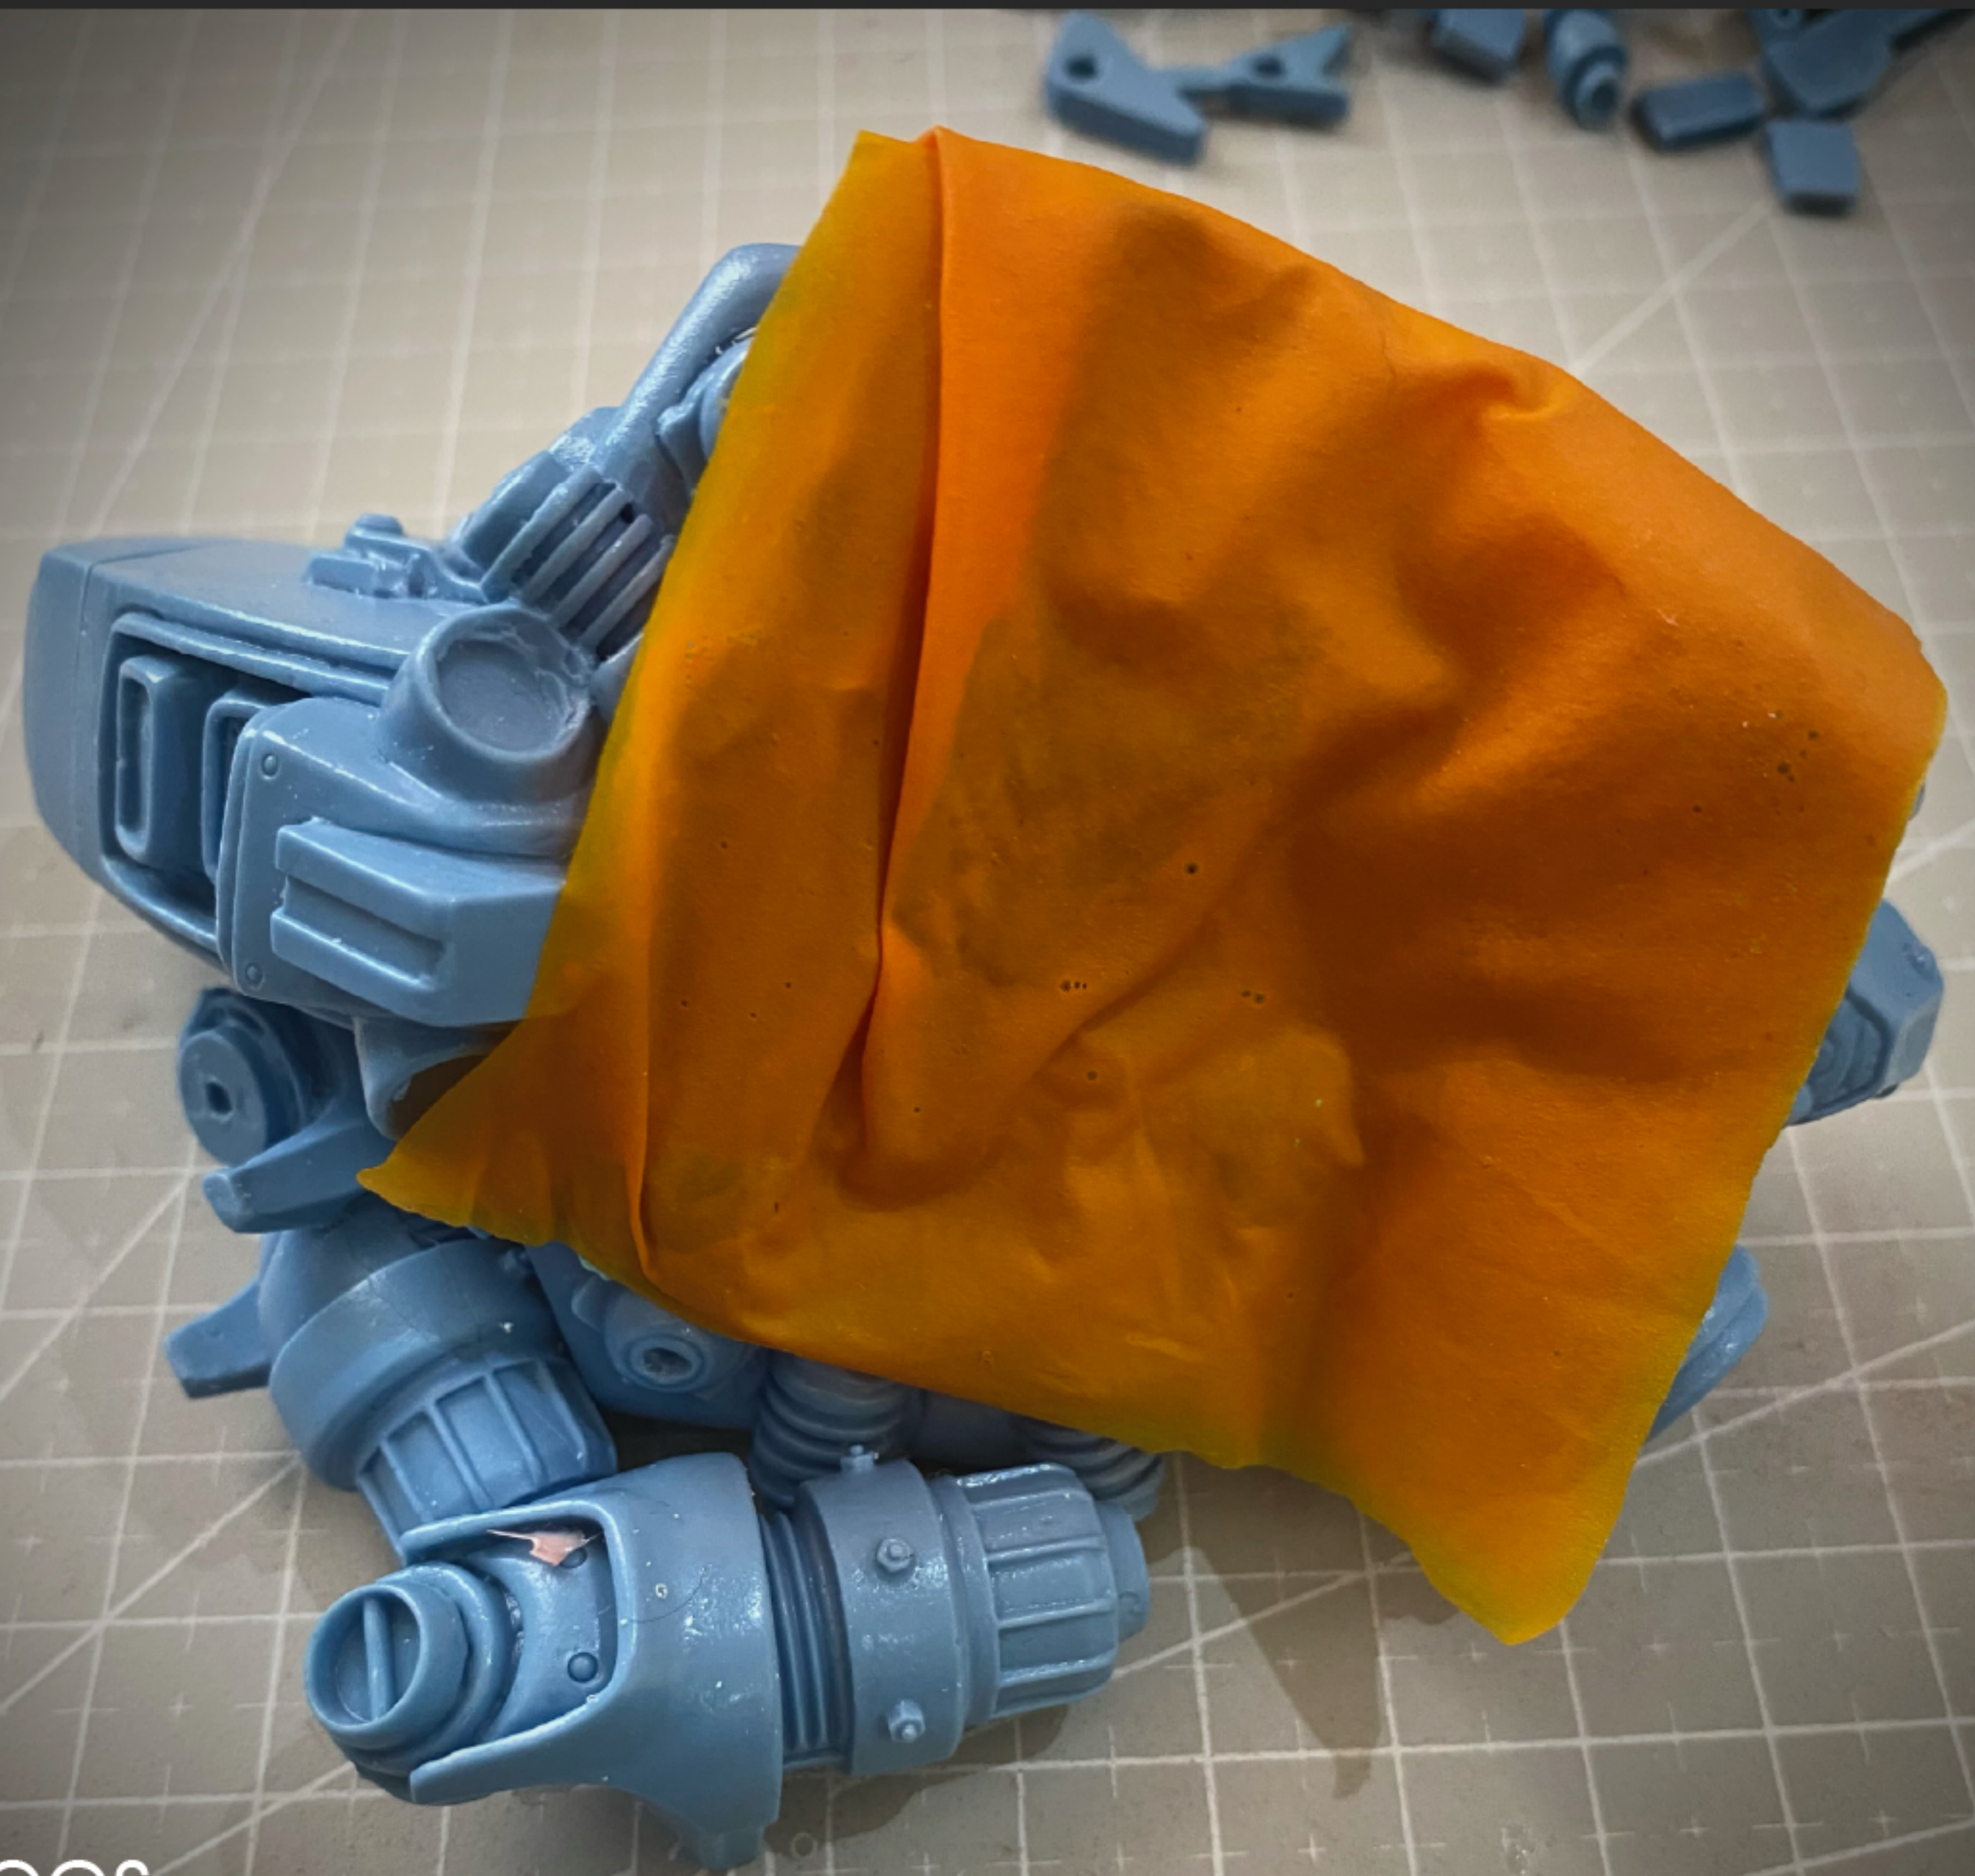

**YOU CAN EVEN
COPY EMBEDDED
GRAPHICS AS WELL.**

SAMPLES:

CLOTH

*CA glue can be used to fix on surfaces

SAMPLE:

ARMOR TEXTURE

*Samples only. You can putty the edges for better output.
**It is safe to paint over with lacquer

SAMPLE: THUNDERBOLT SLEEVES

*given the elasticity, it is best to paint on non moving parts.
